II HOW TO APPLY?

Application Forms / Transaction Slips for the Purchase of Units of the Scheme will be available at the ISCs / Distributors. Applications filled up and duly signed by all joint investors should be submitted along with the cheque / draft / other payment instrument to a Designated Collection Centre. Please refer to the section "HOW TO PAY?" for details of payment.

Applications should be made in adherence to the minimum amount requirements as mentioned in section "MINIMUM PURCHASE & REDEMPTION AMOUNTS".

It is mandatory for every applicant to provide the name of the bank, branch, address, account type and number as per SEBI requirements and any Application Form without these details will be treated as incomplete. Such incomplete applications will be rejected. The Registrar / AMC may ask the investor to provide a blank cancelled cheque or its photocopy for the purpose of verifying the bank account number.

On and from January 01, 2008, submitting a copy of the evidence of having applied for PAN/Form 60/Form 61 will not be valid and it will be mandatory for all investors to provide a certified* copy of the PAN card for all transactions in Units of the Scheme of the Fund.

As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications and therefore, investors are requested to fill-up the appropriate box in the application form failing which applications are liable to be rejected. It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to furnish such documents and information as may be required to comply with the Know Your Customers (KYC) policies under the AML Laws. Applications without such documents and information may be rejected.

In terms of SEBI circulars dated April 27, 2007, April 03, 2008 and June 30, 2008 read with SEBI letter dated June 25, 2007, Permanent Account Number (PAN) would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction, except (a) investors residing in the state of Sikkim; (b) Central Government, State Government, and the officials appointed by the courts e.g. Official liquidator, Court receiver etc. (under the category of Government) and (c) investors participating only in micro-pension. SEBI, in its subsequent letters dated June 19, 2009 and July 24, 2012 has conveyed that systematic investment plans (SIP) and lumpsum investments (both put together) per mutual fund up to Rs.50,000/- per year per investor shall be exempted from the requirement of PAN. Thus, all investors (including resident and non-resident investors) have to provide PAN, along with a certified* copy of the PAN card for all transactions in Units of the Scheme irrespective of the amount of transaction. In case of investors who do not provide a certified* copy of the PAN card, the application for transaction in units of the Scheme of the Fund could be rejected.

Accordingly, investments in Mirae Asset Mutual Fund (including SIP investment where the aggregate of SIP installments in a rolling 12 months period or in a financial year i.e April to March) of upto Rs 50,000/- per investor per year shall be exempt from the requirement of PAN.

WAIVER OF LOAD FOR DIRECT APPLICATIONS

Pursuant to SEBI circular no. SEBI/IMD/CIR No. 4 / 168230/09 dated June 30, 2009 no entry load shall be charged for all mutual fund schemes. Therefore, the procedure for waiver of load for direct applications is no longer applicable.

The scheme application forms carries suitable disclosure to the effect that the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor.

The distributors are required to disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor.

The aforesaid provisions shall be applicable for:

- Investments in mutual fund schemes (including additional purchases and switch-in to a scheme from other schemes) with effect from August 1, 2009.
- Redemptions from mutual fund schemes (including switch-out from other schemes) with effect from August 1, 2009.
- New mutual fund schemes launched on and after August 1, 2009,
- Systematic Investment Plans (SIP) registered on or after August 1, 2009.

Know Your Customer (KYC): The need to "Know Your Customer" is vital for the prevention of money laundering. In terms of the Prevention of Money Laundering Act, 2002, the Rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML Laws), all intermediaries, including Mutual Funds, have to formulate and implement a client identification programme, verify and maintain the record of identity and address(es) of investors.

Revision in Know Your Customer (KYC) Procedure w.e.f. January 1, 2012:

Pursuant to SEBI Circular No. MIRSD/ Cir-26/ 2011 dated December 23, 2011, SEBI (KYC Registration Agency) Regulations, 2011 and SEBI Circular No. MIRSD/SE/Cir-21/2011 dated October 5, 2011, regarding uniformity in the Know Your Customer (KYC) process in the securities market and development of a mechanism for centralization of the KYC records to avoid duplication of KYC Process across the intermediaries in the securities market and further to simplify KYC norms and make it more investor friendly, Mirae Asset Trustee Company Pvt. Limited, the Trustee to Mirae Asset Mutual Fund ("Mutual Fund"), with effect from January 1, 2012 (the "Effective Date"), has decided to make the following changes:

SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries viz. Mutual Funds, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investment Schemes, etc.

For this purpose, KYC registration is being centralised through KYC Registration Agencies (KRA) registered with SEBI. Thus each investor has to undergo a uniform KYC process only once in the securities market and the details would be shared with other intermediaries by the KRA. CVL (CDSL Ventures Ltd.), who was retained by the mutual funds for centralised registration and record keeping of KYC records, has recently obtained SEBI registration as a KRA.

1. Requirement for the existing investors in mutual funds:

The existing investors in mutual funds who have already complied with the KYC requirement and have the KYC compliance letter issued to them by CDSL Ventures Limited are exempt from following the new KYC procedure effective January 01, 2012 but only for the purpose of making additional investment with any SEBI registered mutual fund.

If, however, the KYC compliant investors would like to deal with any SEBI registered intermediary other than mutual funds, they may have to follow the new KYC compliance procedure. AMFI committee shall provide a KYC update form covering the additional information as per the new uniform KYC norms and IPV for specific use by investors, who had complied with mutual fund KYC with CVL prior to 31st December, 2011. The KYC update form shall be uploaded on the website of the mutual fund, once it is available from AMFI.

2. Requirement for the new investors in mutual funds:

With effect from January 01, 2012, all investors other than KYC compliant investors as mentioned above are required to follow the new KYC compliance procedure as mentioned below while making any investments with the Fund:

- Fill up and sign the Common KYC application form [available on the Fund's web site i.e. www.miraeassetmf.co.in] (for individual investors or non-individual investors as appropriate) and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds
- At the time of transacting with the Fund, submit, **in person**, the completed KYC application form along with all the necessary documents as mentioned in the KYC application form with any of the offices of the distributors (qualified as per the following note), Registrar & Transfer Agent of the Fund or the Fund; and
- Obtain a temporary acknowledgement for submission of all the documents and completion of IPV;

Note: As per the SEBI circular MIRSD/Cir-26/2011 dated December 23, 2011, it is mandatory for SEBI registered intermediaries to carry out "In-Person Verification" ("IPV") of any investor dealing with a SEBI registered intermediary. The Mutual Fund may also undertake enhanced KYC measures & due diligence based on the internal client due diligence policy to commensurate with the risk profile of the investors.

For investments in a mutual fund, the Asset Management Companies, Registrar and Transfer Agents of mutual funds and distributors which comply with the certification process of National Institute of Securities Market or Association of Mutual Funds in India and have undergone the process of "Know Your Distributors" are authorised to carry out the IPV. Unless the IPV process is completed, the investor will not be considered as KYC compliant under the new KYC compliance procedure and hence will not be permitted to make any investment in the Fund.

For investors proposing to invest with the Fund directly (i.e. without being routed through any distributor), IPV done by a scheduled commercial bank may also be relied upon by the Fund.

a. Attestation of documents and IPV shall be conducted only by the authorised employees of AMC, the RTA appointed by the AMC and the distributors who comply with the certification process of National Institute of Securities Market (NISM) or Association of Mutual Funds in India (AMFI) and have undergone the process of 'Know Your Distributor (KYD).

b. AMFI registered distributors also need to ensure that their registration is valid and have furnished necessary mandatory requirements such as self declaration, etc.

c. The following shall be recorded on the KYC form;

- I. Name of the person doing attestation of documents/IPV, his designation, organization, his signatures and date of IPV.
- II. ARN code and name of the distributor in case of attestation/IPV done by a valid ARN holder.
- III. In case the attestation/IPV is done by a sub broker, the sub broker conducting the attestation/IPV shall:

- (i) Comply with the certification process of National Institute of Securities Market (NISM) or Association of Mutual Funds (AMFI) and have undergone the process of 'Know Your Distributor (KYD).
 - (ii) Affix on the KYC application form, in addition to his ARN code, the ARN code of the main distributor and the sub broker code allotted to him by the main distributor.
- d. In case of attestation/IPV done by a sub broker, the main distributor under whose code the folio is opened shall also be responsible for the KYC process, including the IPV, conducted by the sub broker.
- e. In case of applications received as "Direct" (not through a distributor), mutual funds may rely on attestation/IPV performed by an authorised official of a scheduled commercial bank.
- f. Attested copies of the KYC documents can be accepted, if the same are attested by the list of people authorised to attest the documents, as mentioned on the KYC forms.
- g. Entities / Authorised persons undertaking verification of documents and the IPV shall exercise due care and diligence while validating the documents and verifying the identity of the client in-person.
- h. Various due diligences to be exercised by the distributors (including sub-brokers who are registered with AMFI) while conducting the KYC process will form part of Code of Conduct prescribed for distributors.

Once all the documents are verified by a KRA, they will send the investor a letter within 10 working days from the date of receipt of necessary documents by them from the Fund or its Registrar and Transfer Agent informing the investor either about compliance by the investor of the new KYC compliance procedure ("**final acknowledgement**") or any deficiency in submission of details or documents.

On the basis of the temporary acknowledgement or the final acknowledgement the investor need not undergo the same process again with another intermediary including mutual funds. However, Mirae Asset Mutual Fund reserves the right to carry out fresh KYC of the investor.

New KYC form can be submitted by an investor along with an investment application (purchase / additional purchase / switch / SIP mandate form / STP mandate form) and not on a stand alone basis, as was possible prior to 31/12/2011. However, an investor who has investments in any mutual fund and is not KYC compliant may submit new uniform KYC form to the mutual fund by quoting the folios number.

For Micro Applications: In accordance with AMFI circular dated June 30, 2009 and final AMFI Guidelines received on July 14, 2009 and SEBI letter to AMFI dated July 24, 2012, investments in Mutual Fund (including SIP investment where the aggregate of SIP installments in a rolling 12 months period or in a financial year i.e April to March) of upto Rs. 50,000/- per investor per year shall be exempt from the requirement of PAN. However, eligible Investors (including joint holders) should comply with the KYC requirement through registered KRA by submitting Photo Identification documents as proof of identification and the Proof of Address [self-attested by the investor / attested by the ARN Holder/AMFI distributor]. Foreign Account Tax Compliance Act (“FATCA”)

The Foreign Account Tax Compliance Act is a United States (“US”) law aimed at prevention of tax evasion by US citizen and residents (“US Persons”) as defined under the U.S. Securities Act of 1933 and corporations or other entities organized under the laws of US, through use of the offshore accounts. The FATCA provisions were included in the Hiring Incentive to Restore Employment (HIRE) Act of 2010, enacted by the US legislature. FATCA is designed to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments.

The Government of India and the United States of America (US) have reached an agreement in substance on the terms of an Inter- Governmental Agreement (“IGA”) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. FATCA provides for Foreign Financial Institutions to register with the US Internal Revenue Service (“IRS”), to obtain Global Intermediary Identification Number (GIIN). The AMC and/or the Fund/Trustee Co. are likely to be classified as a ‘Foreign Financial Institution’ (Investment Entity) under the FATCA provisions.

FATCA is globally applicable from July 1, 2014 and in order to comply with FATCA obligations, the Fund may seek additional information from investors while accepting applications, in order to ascertain their U.S. Person status. Further, with effect from September 15, 2014, the Fund will not accept applications which are not accompanied with information/documentation under FATCA. Investors are therefore requested to ensure that the details required in the Form “Details Under Foreign Account Tax Compliance Act (FATCA)” of the new Application Form are complete and accurate to avoid rejection of the application (updated forms are available on Fund’s website - www.miraeassetmf.co.in).

Under the FATCA regime, in respect of the existing investments from U.S. citizen as on June 30, 2014, the AMC/the Fund will be required to undertake due diligence process and identify US reportable accounts and collect such information/documentary evidences of the investors/Unit holders and disclose such information as far as may be legally permitted about the holdings/investment returns to US IRS and/or the Indian Tax Authorities as and when necessary.

FATCA due diligence will have to be directed at each investor/Unit holder (including joint investor) and on being identified as a reportable person/specified US person, all the folios will be reported. Further, in case of folio with joint investors, the entire account value of investment portfolio will be attributable under each such reportable person.

An investor/Unit holder will therefore be required to furnish such information for the AMC/Fund to comply with the reporting requirements stated in IGA and circulars issued by SEBI/AMFI in this regard.

Investors/Unitholders should consult their own tax advisors regarding FATCA requirements with respect to their own situation.

EQUITY & EQUITY RELATED INSTRUMENTS:

- **Traded Securities**

- When a security (other than Government securities) is not traded on any stock exchange on a particular valuation day, the value at which it was traded on NSE or any other stock exchange as the case may be, on the earliest previous day may be used provided such a day is not more than 30 days prior to the valuation date.
- Traded securities shall be valued at the last quoted price on The National Stock Exchange (NSE). However, if the securities are not listed on NSE, the securities shall be valued at the price quoted at the exchange where they are principally traded.
- When on a particular valuation day, a security has not been traded on NSE but has been traded on another stock exchange, the value at which it is traded on that stock exchange shall be used.

- **Thinly Traded Securities / Non-Traded Securities / Unlisted Securities**

- **Thinly Traded Equity / Equity related securities**

When trading in an equity / equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 5 lakh and the total volume is less than 50,000 shares, it shall be considered as a thinly traded security and valued accordingly.

Where a stock exchange identifies the "thinly traded" securities by applying the above parameters for the preceding calendar month and publishes / provides the required information along with the daily quotations, the same can be used by the Fund.

If the share is not listed on the stock exchanges which provide such information, then it will be obligatory on the part of the Fund to make its own analysis in line with the above criteria to check whether such securities are thinly traded which would then be valued accordingly.

In case trading in an equity security is suspended upto 30 days, then the last traded price would be considered for valuation of that security. If an equity security is suspended for more than 30 days, then the AMC / Trustees will decide the valuation norms to be followed and such norms would be documented and recorded.

- **Non-Traded Equity Securities**

When a security (other than Government securities) is not traded on any stock exchange for a period of 30 days prior to the Valuation Day, the security is treated as non-traded security.

- **Valuation of Thinly Traded / Non-Traded Equity Securities**

Non-traded / thinly traded equity securities shall be valued "in good faith" by the asset management company on the basis of the valuation principles laid down below:

- Based on the latest available Balance Sheet, net worth shall be calculated as follows :

$$\text{Net Worth per share} = \frac{[\text{share capital} + \text{reserves (excluding revaluation reserves)} - \text{Miscellaneous expenditure and Debit Balance in P\&L A/c}]}{\text{No. of Paid-up Shares}}$$
- Average capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalization rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.
- The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for illiquidity so as to arrive at the fair value per share.

- In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalized earning.
- In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.

In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it belongs would be compared on the date of valuation.

- **Valuation of securities with Put/Call Options**

The option embedded securities would be valued as follows:

- **Securities with call option**

The securities with call option shall be valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option.

In case there are multiple call options, the lowest value obtained by valuing to the various call dates and valuing to the maturity date is to be taken as the value of the instrument.

- **Securities with Put option**

The securities with put option shall be valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option.

In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is to be taken as the value of the instruments.

- **Securities with both Put and Call option on the same day:**

The securities with both Put and Call option on the same day would be deemed to mature on the Put/Call day and would be valued accordingly.

- **Unlisted Securities**

Investments in Unlisted securities shall be valued “in good faith” on the basis of the valuation principles laid down below till such time these are listed on a Stock Exchange:

- Based on the latest available Balance Sheet, net worth shall be calculated as follows :
Net Worth per share = [share capital + reserves (excluding revaluation reserves) - Miscellaneous expenditure and Debit Balance in P&L A/c] / No. of Paid-up Shares.
- Average capitalization rate (P/E ratio) for the industry based upon either BSE or NSE data (which should be followed consistently and changes, if any, noted with proper justification thereof) shall be taken and discounted by 75% i.e. only 25% of the Industry average P/E shall be taken as capitalization rate (P/E ratio). Earnings per share of the latest audited annual accounts will be considered for this purpose.
- The value as per the net worth value per share and the capital earning value calculated as above shall be averaged and further discounted by 10% for illiquidity so as to arrive at the fair value per share.
- In case the EPS is negative, EPS value for that year shall be taken as zero for arriving at capitalized earning.
- In case where the latest balance sheet of the company is not available within nine months from the close of the year, unless the accounting year is changed, the shares of such companies shall be valued at zero.
- In case an individual security accounts for more than 5% of the total assets of the scheme, an independent valuer shall be appointed for the valuation of the said security. To determine if a

security accounts for more than 5% of the total assets of the scheme, it should be valued by the procedure above and the proportion which it belongs would be compared on the date of valuation.

At the discretion of the AMC and with the approval of the trustees, an unlisted equity share may be valued at a price lower than the value derived using the aforesaid methodology.

- **Illiquid Securities**

- Aggregate value of “illiquid securities” of scheme, which are defines as non-traded, thinly traded and unlisted equity shares, shall not exceed 15% of the total assets of the scheme and any illiquid securities held above 15% of the total assets shall be assigned zero value:

Provide that in case any scheme has illiquid securities in excess of 15% of total assets as on September 30, 2000, then such a scheme shall within a period of two years bring down the ratio of illiquid securities within the prescribed limit of 15% in the following time frame:

- All the illiquid securities above 20% of total assets of the scheme shall be assigned zero value on September 30, 2001.
- All the illiquid securities above 15% of total assets of the scheme shall be assigned zero value on September 30, 2001.
- All funds shall disclose as on March 31 and September 30 the scheme-wise total illiquid securities in value and percentage of the net assets while making disclosures of half-yearly portfolios to the unitholders. In the list of investments, an asterisk mark shall also be given against all such investments which are recognized as illiquid securities.
- Mutual Funds shall not be allowed to transfer illiquid securities among their schemes w.e.f October 1, 2000.

DEBT & DEBT RELATED INSTRUMENTS:

Security Type	Valuation Policy
Debt and Money Market Instruments:	
Traded Instruments: Securities with residual maturity <= 60 days	Traded securities (FIMMDA/NSE/BSE/Own) will be valued on weighted average traded price / yield on the date of trade. (Market Trades would be given higher priority. The order of preference would be FIMMDA, Exchange (NSE, BSE) and own trades. The qualifying criteria will be observed at the exchange/ platform level).
Traded Instruments: Securities with residual maturity > 60 days	The valuation of Debt Securities with residual Maturity more than 60 days; both traded and Non Traded; shall be valued as the Average of the Valuations for Securities as provided by CRISIL and ICRA at the end of Every Business Day. Scrip level Valuations will be provided by the agencies CRISIL & ICRA factoring the Issuer Ratings, instrument duration, demand / supply, relevant market yields and spreads corresponding to the asset class and sector of the scrip to be valued.
Non Traded Instruments: Securities with residual maturity <= 60 days	Straight line amortization from last valuation price, as long as the amortized price remains within $\pm 0.10\%$ band of the reference price. In case the amortized price falls outside the above band, the reference price provided by CRISIL or any other agency approved by AMFI shall be considered.

Security Type	Valuation Policy
Non-Traded Instruments: Securities with residual maturity > 60 days	The valuation of Debt Securities with residual Maturity more than 60 days; both traded and Non Traded; shall be valued as the Average of the Valuations for Securities as provided by CRISIL and ICRA at the end of Every Business Day. Scrip level Valuations will be provided by the agencies CRISIL & ICRA factoring the Issuer Ratings, instrument duration, demand / supply, relevant market yields and spreads corresponding to the asset class and sector of the scrip to be valued.
Other Fixed Income Instruments:	
Government Securities	For the sovereign securities (including T-Bills) with residual maturity up to 60 days, the amortized price may be used for valuation as long as it is within ± 10 basis points (bps) ($\pm 0.10\%$) of the reference price. In case the variance exceeds ± 10 bps of the reference price, the valuation shall be adjusted to bring it within the ± 10 bps band.
Corporate Bonds	Valuation prices provided by CRISIL or any other agency approved by AMFI for individual securities (Matrix based valuation)
Treasury Bills with residual maturity less than or equal to 60 days	For the sovereign securities (including T-Bills) with residual maturity up to 60 days, the amortized price may be used for valuation as long as it is within ± 10 basis points (bps) ($\pm 0.10\%$) of the reference price. In case the variance exceeds ± 10 bps of the reference price, the valuation shall be adjusted to bring it within the ± 10 bps band.
Treasury Bills with residual maturity more than 60 days	Treasury bills having a residual maturity greater than 60 days will be valued at the average of the prices provided by approved agencies by AMFI (currently CRISIL and ICRA).
Interest Rate SWAP/ Forward Rate Agreements	All SWAP/ FRA's will be valued at net present value after discounting the future cash flows. Future cash flows for SWAP/FRA contract will be computed daily based as per terms of contract and discounted by suitable OIS rates available on Reuters/Bloomberg/ any other provider as approved by Valuation Committee.
Overnight Money (CBLO/Reverse Repo/ CROMS)	Overnight money deployed will be valued at cost plus the accrual/amortization.
Fixed Deposit	Fixed deposits will be valued at cost.

Guidelines/Mechanisms to determine spreads:

- In the case of instruments with residual maturity up to 91 days, purchased for the first time, the credit spread for the purpose of valuation would be fixed at the time of purchase, as difference between the purchase yield and benchmark yield without any cap on the illiquidity premium/discount.
- The spread so fixed can be changed to reflect the changes in the market determined through an own trade or market trades at a different spread.
- Any change in the credit rating
- Any change in credit profile of the issuer as perceived by market participants even though there may be no change in credit rating. This can happen as at times rating agencies take time to review/change rating and market prices in the credit risk faster.

Criteria for Identifying Similar Securities:

SEBI vide the gazette notification dated February 21, 2012 has mandated that in order to have fairness in the valuation of debt and money market securities, the asset management company shall take in to consideration prices of trades of same security or similar security reported at all available public platform. These include FIMMDA /NSEWDM/BSE or any other public platform available later.

There is no clear definition of “similar security” outlined by SEBI. Hence, it is at the discretion of the AMC to define similar security to be used for valuation. Out of the securities traded in market lot, as per the public platform information, security may be considered as similar security if it meets all the following criteria:

1. The security is in the same class e.g. CP, CD, Bonds, etc.
2. Similar security from a different issuer within the same category and similar credit rating, with maturity date within ± 5 days of maturity date of security OR Security belongs to the same Issuer and is available in marketable lot, with a deviation of maturity date of ± 5 days. Suitable rationale will be kept on records.
3. Security belongs to the same category i.e. NBFC, Real Estate, PSU Bank, Private Bank or Financial Institution, or others.
4. Security has same rating for the short end as well as long end. For e.g. while deciding the similar CP, consider CP short term rating as well as long term rating of that Company and compare the same.
5. For comparison amongst aforesaid criteria, first preference would be given for the security of the same issuer, if available on marketable lot.

The investment valuation norms as outlined above are as per SEBI (MF) Regulations and are subject to change from time to time in conformity with changes made by SEBI.

Valuation of Convertible Debentures

As per Eighth Schedule of SEBI (Mutual Fund) Regulations method of valuation of convertible debentures is prescribed.

Non-convertible and convertible components are valued separately.

- **Floating rate Securitized Debt (FRN PTCs):**

Valuation of such instruments is not covered by Crisil Bond Valuer. Such papers are generally linked to Mibor and have Cap and Floor rates with various compounding options and periodic repayment structure. Generally issuer also gives cash flow attached to the paper at Cap rate. Valuation of such papers shall be done by taking cash flow at cap rate as base and shall be valued liked normal PTC. In case any other type of FRN PTC structure, valuation methodology shall be provided by AMC on case to case basis.

- **Government Securities**

Traded and non- traded Government Securities shall be valued as per the prices for Government Securities released by an agency suggested by AMFI for the sake of uniformity in calculation of NAVs across all mutual funds. Accordingly, traded and non-traded government securities are valued at prices obtained from The Credit Rating Information Services of India Limited or any other agency as suggested by AMFI from time to time.

- **Convertible debentures and bonds**

In respect of convertible debentures and bonds, the non-convertible and convertible components shall be valued separately. The non-convertible component should be valued on the same basis as would be applicable to a debt instrument. The convertible component shall be valued on the same basis as would be applicable to an equity instrument. If, after conversion, the resultant equity instrument would be traded *pari passu* with an existing instrument which is traded, the value of the latter instrument can be adopted after an appropriate discount for the non-tradability of the instrument during the period preceding the conversion. While valuing such instruments, the fact as to whether the conversion is optional or not shall also be factored in.

- **Warrants**

In respect of warrants to subscribe attached to instruments, the warrants can be valued at the value of the share which would be obtained on exercise of the warrant as reduced by the amount which would be payable on exercise of the warrant. A discount similar to the discount to be determined in respect of convertible debentures shall be deducted to account for the period, which must elapse before the warrant can be exercised.

- **Repo transactions**

Where instruments have been bought on 'repo' basis, the instrument shall be valued at the resale price after deduction of applicable interest up to the date of resale. Where an instrument has been sold on a 'repo' basis, adjustment shall be made for the difference between the repurchase price (after deduction of applicable interest up to the date of repurchase) and the value of the instrument. If the repurchase price exceeds the value, the depreciation shall be provided for and if the repurchase price is lower than the value, credit shall be taken for the appreciation.

Rights Entitlement / Shares

Until they are traded, the value of "rights" shares shall be calculated as:

$$V_r = n \div m \times (P_{ex} - P_{of})$$

Where V_r = Value of rights

n = no. of rights offered

m = no. of original shares held

P_{ex} = Ex-rights price

P_{of} = Rights Offer Price

Where the rights are not treated *pari passu* with the existing shares, suitable adjustments shall be made to the value of the rights. Where it is decided not to subscribe for the rights but to renounce them and renunciations are being traded, the rights can be valued at the renunciation value.

- **Foreign Securities**

On the Valuation Day, the securities issued outside India and listed on the stock exchanges outside India shall be valued at the closing price on the stock exchange at which it is listed or at the last available traded price. However in case a security is listed on more than one stock exchange, the AMC reserves the right to determine the stock exchange, the price of which would be used for the purpose of valuation of that security.

Further in case of extreme volatility in the international markets, the securities listed in those markets may be valued on a fair value basis. Due to difference in time zones of different markets, in case the closing prices of securities are not available within a given time frame to enable the AMC to upload the NAVs for a Valuation Day, the AMC may use the last available traded price for the purpose of valuation. The use of the closing price / last available traded price for the purpose of valuation will also be based on the practice followed in a particular market. In case any particular security is not traded on the Valuation Day, the same shall be valued on a fair value basis by the Valuation Committee of the AMC.

On the Valuation Day, all assets and liabilities denominated in foreign currency will be valued in Indian Rupees at the exchange rate available on Bloomberg / Reuters / RBI or any other standard reference rate at the close of banking hours in India. The Trustees reserve the right to change the source for determining the exchange rate. The exchange gain / loss resulting from the aforesaid conversion shall be recognized as unrealized exchange gain / loss in the books of the Scheme on the day of valuation. Further, the exchange gain / loss resulting from the settlement of assets / liabilities denominated in foreign currency shall be recognized as realized exchange gain / loss in the books of the scheme on the settlement of such assets / liabilities.

Mutual Funds

MF units listed and traded would be valued at the closing traded price as on the valuation date. Unlisted MF units and listed untraded MF units would be valued at would be valued at the NAV as on the valuation date.

Gold

The gold held by a gold exchange traded fund scheme shall be valued at the AM fixing price of London Bullion Market Association (LBMA) in US dollars per troy ounce for gold having a fineness of 995.0 parts per thousand, subject to the following:

If permitted by SEBI under extant regulations/guidelines, the Trustee may permit the fund to engage in stock lending. Securities lending means the lending of stock to another person or entity for a fixed period of time, at a negotiated compensation.

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent out securities and this can lead to temporary illiquidity. It may be noted this activity would have the inherent probability of collateral value drastically falling in the times of strong downward market trends.

Such investments shall be made when in view of the Fund Manager, such investments could provide reasonable returns commensurate with risks associated with such investments and shall be made in accordance with the investment objective of the Scheme. The lending transactions may require procurement of collateral which would exceed in value, the value of the securities lent. The collateral can be in the form of cash, bank guarantee, government securities or certificate of deposits or other securities as may be agreed.

If permitted by SEBI under extant regulations/guidelines, the scheme may also engage in stock borrowing. Stock borrowing means the borrowing of stock from another person or entity for a fixed period of time, at a negotiated compensation. The securities borrowed will be returned to the lender on expiry of the stipulated period.
