	Outstanding Report		
	Special Request Report		

Steps :
1. Select Type of report

BRIEF DESCRIPTION OF REPORTS

Beneficiary master download This report provides the detail of beneficiaries registered in the system.

Generic/Reverse File download Report This report provides the detail of the request initiated for report download for issued / liquidation / outstanding / special request report. It also gives the link from where the report can be downloaded. In addition to this, scheduled reports are available for download.

Issued Report This report provides status details of all the transactions initiated by the corporate (excludes any rejections during upload process).

Liquidation Report This report provides details of all the transactions that have been paid to beneficiary or closed in the system (e.g. rejection of electronic transaction)

Outstanding Report This report provides details of all the transactions that are outstanding (unpaid).

Special Request Report This report provides details of all transactions that have been marked as hold/canceled in the system.

Detail description of specific report will be shown on report page if user selects the respective report name from **Report Category**, detail descriptions will include basic report details and available filter criteria descriptions used for that report.
